

Distance Learning Plan Template for Charter Schools

On June 24, 2020, Governor Ducey issued Executive Order 2020-41 *Prioritizing Kids and Schools During COVID-19* regarding the reopening of schools for school year 2020-2021. As part of the Executive Order, all public schools may submit a Distance Learning Plan (DLP) to receive the flexibility to offer distance learning options for students without an approved Arizona Online Instruction (AOI) program for the 2020-2021 school year. Charter schools are required to submit a DLP to the Arizona State Board for Charter Schools (ASBCS) prior to implementing distance learning. Charter schools may begin operating their DLP upon submission of the plan to ASBCS.

Charters may make revisions to improve their DLP at any time, but must submit those changes to the ASBCS within 10 business days of any substantive revision. Charters should contact their assigned Education Program Manager at the ASBCS to revise their DLP.

Instructions

A charter holder that wishes to provide distance learning under Executive Order 2020-41 must create a DLP using this template, provided by the ASBCS. Charter holders not utilizing the appropriate template will be required to revise and resubmit their plans. The template is a Word document that must be completed in its entirety and uploaded to a Google Drive, as specified in communications from ASBCS and each charter holder's assigned Education Program Manager.

In the sections found on pages 3-5, a charter holder will populate background information regarding charter holder and school information, including basic information about each charter holder's overall plan and intended number of instructional days.

Most areas of the DLP will be completed by breaking processes into discreet, sequential action steps that answer the questions of what, who, when, and how. The action steps require the charter holder to name the action, indicate who is responsible for the action, provide the frequency and/or timing of the action, and identify what evidence will exist to show that the step has been/is being completed. Areas should include multiple action steps in order to demonstrate that the charter holder has a "detailed plan" to "provide substantive distance learning", as required by the Executive Order. An example of a set of action steps for an area is below:

Distance Learning Plan Template 2020-2021

Action Step(s)	Person(s) Responsible	Frequency and/or Timing	Evidence of Implementation
<ol style="list-style-type: none"> 1. Develop full Professional Development Calendar that includes training on Virtual Instruction. 2. Provide pre-service training to staff on Edgenuity, Core Knowledge, Singapore Math, and required state training 3. Schedule and implement weekly virtual meetings with all staff to problem solve stakeholder struggles with virtual model 4. Provide virtual coaching to all virtual staff members when difficulties arise (through "classroom observations" or by staff request). 	<ol style="list-style-type: none"> 1. Dean of Academics 2. Administrative Team (Head of School, Dean of Academics, Instructional Coaches) 3. Dean of Academics and Virtual Instructors 4. Instructional Coaches 	<ol style="list-style-type: none"> 1. Meeting Notes 4. Coaching Logs

The example above is not intended to demonstrate that these are specific action steps a charter should use, nor that this is the best or most appropriate number of action steps. Rather, it is provided as guidance to show the manner in which the template is to be completed.

Other areas of the template will require the charter holder to check boxes to indicate specific tasks, strategies, or resources to be used for different stakeholders included in the distance learning process.

Distance Learning Background Information

a. *Number of Instructional Days (3.b)*

Each charter school shall operate for the required 180 days of instruction pursuant to Executive Order 2020-41 (3.b). An exception to this requirement may be granted by the ASBCS, if the school intended to switch to a different schedule for the 2020-2021 school year. If ASBCS

Distance Learning Plan Template 2020-2021

previously approved the school to operate on a calendar that was not 180 days, but met the number of hours equal to 180 days of instruction, this provision is still met, and no action is required.

If the school intended to switch to a different schedule for the 2020-2021 school year, but has not yet been approved by the ASBCS, please contact your Education Program Manager.

Please note, pursuant to Executive Order 2020-44 the Arizona Department of Education (ADE) shall conduct an analysis of the need to waive the number of school days that schools are required to provide schooling and the impact of such a waiver by August 31, 2020.

How many instructional days will the charter school operate for School Year 2020-2021?	177
How many instructional days did the charter school operate for School Year 2019-2020?	180

Please choose the option that indicates your proposed duration/plan for distance learning:	<input type="checkbox"/> 1. We intend to operate distance learning for the full year for all students. <input type="checkbox"/> 2. We intend to operate distance learning until _____ for all students. <input type="checkbox"/> 3. We intend to operate distance learning only until the Governor allows schools to fully reopen. <input checked="" type="checkbox"/> 4. We intend to operate distance learning and use a hybrid approach once the Governor allows schools to fully reopen. Hybrid includes distance learning with students learning in the classroom on some days, and from home on other days (i.e. half of the students attend Mon/Wed and half of the students Tues/Thurs, half of the students come each week, etc.). <input type="checkbox"/> 5. Other (Please explain below)		
	If you chose option 4 or 5 above, please provide a brief narrative explaining the details of the plan you will use: Edge High School will start the school year with 100% of students doing distance learning based on Arizona Department of Health Services and Pima County Health Department's recommendations and EDGE Board Of Directors decision on August 11th. The EDGE Board of Directors will		

meet monthly to review county health metrics to determine if and when it is safe to resume in-person learning. If and when that occurs, Edge will transition to offering two learning options: 1) Distance learning or 2) Hybrid option with some in-person and some distance learning.

Options for in-person learning once EDGE Boards of Directors decides it is safe to start in-person learning in reviewing Pima County Health Department Metrics:

Option 1: 100% distance learning

In addition to text book based curriculum, Edge High School has utilized on-line curriculum for over 15 years. Students choosing this option will work from home and have access to Edge’s online curriculum. Devices will be provided to students who need them. Real time classroom instruction will be conducted utilizing Google Meets. Additionally, for some subjects, recorded lessons will also be available. Students doing distance learning will be tasked to work on their courses during specific times of the day that would align with their class schedule as if they were attending school in person. This will ensure that Edge teachers are not simultaneously responsible for providing in-person and distance learning instruction. Classes will be consistent with real time instruction and will utilize approved online programs with assessment tools.

Option 2: Hybrid In-person learning with some distance learning

In order to appropriately social distance per Center For Disease Control guidelines for schools, half the student body will attend classes in-person on Mondays and Tuesdays, while the other half attend in-person on Thursdays and Fridays. On days when students are not attending in-person, students will be doing distance learning from home. Students will be assigned a dedicated Chromebook for them to use at school and at home. Real time classroom instruction will be conducted utilizing Zoom and Google Meets when students are distance learning. Additionally, for some subject areas recorded lessons will also be made available.

--	--

Is the charter requiring students to do distance learning?	Yes
If students are required to do distance learning, is the charter school providing a physical location for students to go during the same hours of the day AND the same days throughout the week as it did in the FY2020 school year prior to the school closure?	Yes

**In the case of a statewide closure or delay of in-person instruction, the requirement to provide a physical location available for students is waived under the Executive Order 2020-41 until the State permits in-person instruction. If due to a COVID-19 outbreak and pursuant to A.R.S. § 36-787, the Arizona Department of*

Health Services directs a school to close temporarily in order to appropriately sanitize the facility, the requirement to provide a physical location available for students is waived.

Attendance Tracking (1.a.i, 1.i)

a. Describe how the charter school will track attendance for students attending remotely, whether full time or intermittently.

The description must include the specific measures that will be used to determine whether a student participating in DL will be reported as present or absent on days when instruction does not take place in person. Attendance tracking may include methods such as:

- Communication with their teachers via telephone, ZOOM, MS Teams, or other digital meeting software.
- Student participation in a virtual meeting or classroom session (ZOOM, MS TEAMS, Google Meets, etc.)
- Daily assignments completed and submitted by the student.
- A parent attestation of documentation of time spent on educational activities.

The charter holder is advised that the ADE will continue to issue guidance on the topic of attendance, and should closely monitor updated information related to these expectations. Current guidance can be found here: <https://www.azed.gov/finance/school-finance-guidance-for-covid-19/>

If the Charter Holder currently operates an approved AOI, it must follow the AOI attendance requirements outlined by ADE and A.R.S. §15-808 for students enrolled in the AOI.

Contact with students through Google Meets and or Zoom, phone calls, text messages, emails

At the beginning of the school year and as each new student enrolls thereafter, all files are reviewed by the receptionist, registrar, and SPED team to identify students with disabilities. In addition, 45-day screens are completed on all students to catch any students not previously identified. SPED Team and administration will make contact with families and discuss any barriers to success while distance learning. Edge will work to address any barriers. Instructional staff is notified of students on their rosters with IEPS. Coaching and training provided to teachers to meet to ensure teachers are aware and have efficacy in providing accommodations and any modification required.

Process for Implementing Action Step

Edge will follow the protocol for AZELLA testing and ELL Program Management as prescribed by the ADE- OELAS. In addition, AZELLA testing will be provided in accordance with CDC Guidelines and every effort will be made to test each student individually when possible. Historically, EDGE has had a low ELL population – under 10 students per school year.

ELL students will be identified at enrollment throughout the 20-21 school year and based on review of Phlote/school records, referred for AZELLA Placement testing. ELL students who score below Proficient will attend Parent/Student, ELL Team meeting to prepare the ELL Academic plan. Meetings will be held by Zoom, Phone, FaceTime, or Google Meets. Any changes to the plan or requests will be by Parent/Student/ELL Team virtual /phone documented meeting/communication log.

Students currently identified as ELL at enrollment will be offered the above ELL services in accordance with ADE-OELAS requirements and retested with Spring 20-21 AZELLA Reassessment Test to measure growth.

Students who score below Proficient on AZELLA Reassessment will continue to be offered ELL services (online) until such time the student tests Proficient on AZELLA Reassessment.

At enrollment, all identified ELL students will be provided with technology and access to connectivity confirmed to ensure equitable learning. Training will be provided and ongoing support will be available from Core teachers throughout the school year.
